

Swan 371

Dkk. 895.000

Årgang
1982

Længde
11,35m.

Bredde
3,50m.

Dybgang
2,10m.

Vægt
7300kg.

S/Y "Woodstock" Swan 371 fra 1982 byggenr 067 søger ny ejer.

Woodstock er 41 år gammel. Første ejer har haft båden i 24 år, nuværende ejer i 17 år.

Opbevaret i hal hver vinter i alle år.

At eje en Swan fra det finske værft Nautor er en forpligtelse som at eje en original sportsvogn.

Udstyret på Woodstock er løbende opdateret, se specifikationsliste.

Det unikke design er skabt af bådkonstruktøren Ron Holland. Rodrig og den kraftige dimensionering af skødespil og beslag sikrer sammen med nye sejl fra North Sails, at det ikke er båden, der giver op i hårdt vejr. Mens gløden i teakapteringen om læ danner ramme om hyggelige stunder både på tur og i havn.

Et hyppigt spørgsmål fra kajen lyder: "Er det ikke en Swan, du sejler i ? Jo, det er en Swan."

In English:

S/Y "Woodstock" Swan 371, build 1982, no. 067 is looking for a new owner.

Woodstock is 41 years old. Owned by the first owner for 24 years, current owner 17 years.

Indoor stored every winter. Owning a Swan from the Finnish shipyard Nautor is a commitment like having an original sports car.

The equipment at Woodstock is continuously maintained and updated, see the specification list.

The unique design was created by boat designer Ron Holland. The rig and the powerful dimensions of winches and brackets, together with new sails from North Sails, ensure safe sailing even when weather is rough. The glow of the teak interior creates a cosy space for pleasant moments both when cruising and in port.

A frequent question from the harbour quay: "Is that a Swan you're sailing ? Yes, it's a Swan."

Båden kan besigtiges i København efter aftale.
